The ABO - Arquivos Brasileiros de Oftalmologia follows the model established by the International Committee of Medical Journal Editors for its Authorship criteria.

To ensure that each author has participated significantly in the study, every individual designated as an author must have contributed at least in one item of group I (1, 2 or 3), one item of group II (4 or 5), and the item of group III (6) as listed on the next page. Participation in group IV items is optional.
